

Outstanding Loss Prevention Awards (OLPAs) recognise outstanding achievement in loss prevention, asset protection and profit protection across all sectors. The awards celebrate individuals, teams, organisations and technologies that demonstrate measurable impact in reducing risk, preventing loss and strengthening organisational resilience.

Open to professionals operating in retail, corporate, logistics, manufacturing, financial and public sector environments, the OLPAs highlight innovation, leadership and best practice across a diverse range of roles - from fraud and investigations to supply chain security, enterprise risk management, compliance and ethics, business continuity, ESG and sustainability, and strategy.

By showcasing excellence and encouraging collaboration, the OLPAs champion the vital role loss prevention plays in protecting profitability, reputation and long-term sustainability.
